

# SCHOOL COUNCIL NEWSLETTER

## What's been happening?

School council would like to honour these students for outstanding service in trying to continue make our school more amazing! Jodie, Sawda, Karnika, Mia, Camilla, Jay and Mohammad. And of course all of the School Council.

### Walking Monitors

Walking monitors have been amazing, well done for your persistent hard work and resilience.

### Games Room at Lunch Time

This was great and we want it to come back so we are in talks with Miss Lassiter and Ms. Banfield about their timetable!

### Anti Bullying Week

This got everyone talking and wearing odd socks. We showed that we were not afraid to be different. We also raised **£35** pounds and were able to go to the Range to buy prizes for future events.

### Penny Race: DARWIN Class Winners!

Well done to all of the classes and parents who helped with this great new idea. We have raised a whopping **£177** for charity! Our charity will be **Cancer Research** Voted for by you!

*There is no magic to achievement it 's really about hard work, choices and persistence.*

*Michelle Obama*

**We have achieved so much this year, we have worked hard, we have made changes and we are really thankful for all of your support.**

### Playtimes

*We wanted more adults in the playground and more things to do and we got it! Well done again school council and the Anti-bullying team!*

*People with goals succeed because they know where they are going!*

*Earl Nightingale*

## NEXT YEAR!

Our goal next year is to recycle as much as possible. There is a landfill site just around the corner so a kind teacher will be delivering our plastics every week. Lets do It! **Turn over to learn more.**

## **WE WANT TO DO OUR BIT!**

What is Plastic Pollution? It's the accumulation of plastic waste in the environment which negatively affects all living things and their habitat.

Plastic pollution comes in many forms: Plastic Litter, Marine Debris and Plastic Particle Pollution, to name the most common.

Although there is plastic pollution on land, more of these waste products end up in the sea. It has reached every corner of our planet – from the highest mountains to the deepest sea.

That's not an exaggeration. The water brings the plastic waste even in places where there are no humans.

Our planet is being destroyed and we need to do something for the wildlife and for the future!

**KINGSLEY SCHOOL COUNCIL ARE ON IT!**
